

Worry and experience of harm from everyday risks

People in Congo Brazzaville are most worried about violent crime (91%) and road and traffic accidents (88%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Congo Brazzaville runs higher than the global average. Concern far outstrips lived experience, however: while 91% worry about violent crime, only 13% have actually been harmed by it in the past two years. The harm most commonly experienced in Congo Brazzaville is prolonged severe weather (25%). The gap between worry and experience is widest for violent crime, where 91% are worried but 13% have actually been affected.

Top of mind risk to safety

Asked to name the single greatest risk to their daily safety, people in Congo Brazzaville most often point to crime and violence (38%), above the global figure of 10%. Health problems ranks second (21%), followed by the economy and personal finances (15%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
