

Worry and experience of harm from everyday risks

People in Cyprus are most worried about wildfires (91%) and road and traffic accidents (89%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Cyprus runs higher than the global average. Concern far outstrips lived experience, however: while 91% worry about wildfires, only 10% have actually been harmed by it in the past two years. The harm most commonly experienced in Cyprus is prolonged severe weather (23%). The gap between worry and experience is widest for wildfires, where 91% are worried but 10% have actually been affected.

Top of mind risk to safety

- Road and transport
- Crime and violence
- Health
- Economy and financial
- Climate and severe weather
- War/terrorism
- Work
- Other risks*
- Nothing/No risk
- Don't know

Asked to name the single greatest risk to their daily safety, people in Cyprus most often point to road and transport accidents (27%), above the global figure of 15%. Crime and violence ranks second (17%), followed by the economy and personal finances (12%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
