

Worry and experience of harm from everyday risks

People in Egypt are most worried about road and traffic accidents (77%) and violent crime (71%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Egypt runs lower than the global average. Concern far outstrips lived experience, however: while 77% worry about road and traffic accidents, only 4% have actually been harmed by it in the past two years. The harm most commonly experienced in Egypt is prolonged severe weather (15%). The gap between worry and experience is widest for road and traffic accidents, where 77% are worried but 4% have actually been affected.

Top of mind risk to safety

- Road and transport
- Crime and violence
- Health
- Economy and financial
- Climate and severe weather
- War/terrorism
- Work
- Other risks*
- Nothing/No risk
- Don't know

Asked to name the single greatest risk to their daily safety, people in Egypt most often point to the economy and personal finances (29%), above the global figure of 14%. Health problems ranks second (24%), followed by road and transport accidents (15%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
