

Worry and experience of harm from everyday risks

Worry + country value
Experience + country value

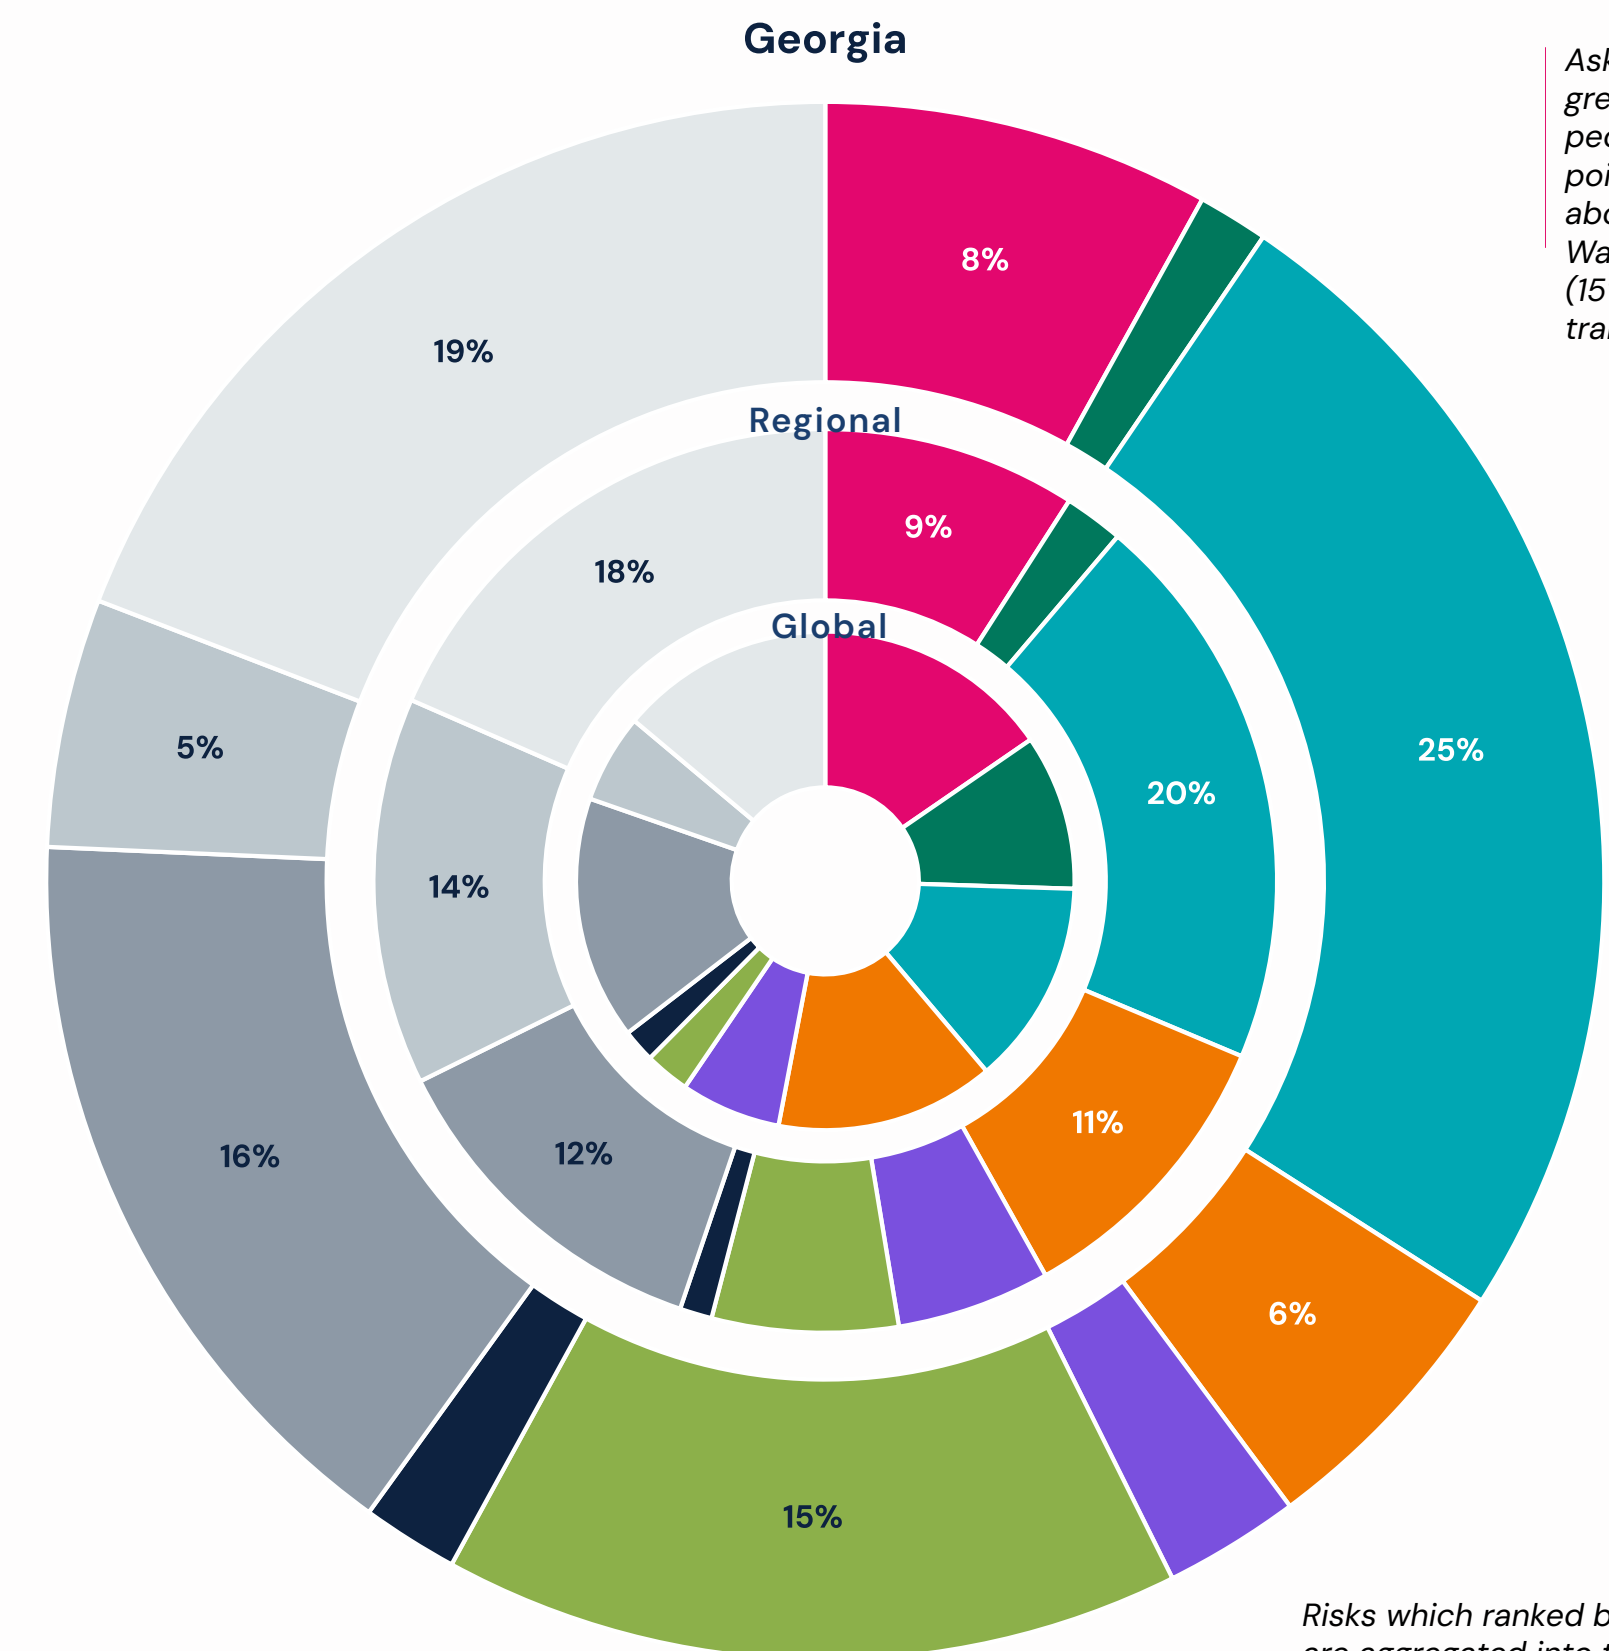

Dashed lines represent global average.
Dotted lines represent regional average.

People in Georgia are most worried about prolonged severe weather (77%) and road and traffic accidents (75%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Georgia runs in line with the global average. Concern far outstrips lived experience, however: while 77% worry about prolonged severe weather, only 11% have actually been harmed by it in the past two years. The harm most commonly experienced in Georgia is road and traffic accidents (16%). The gap between worry and experience is widest for prolonged severe weather, where 77% are worried but 11% have actually been affected.
