

Worry and experience of harm from everyday risks

People in Honduras are most worried about prolonged severe weather (72%) and road and traffic accidents (70%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Honduras runs lower than the global average. Concern far outstrips lived experience, however: while 72% worry about prolonged severe weather, only 22% have actually been harmed by it in the past two years. The harm most commonly experienced in Honduras is prolonged severe weather (22%). The gap between worry and experience is widest for violent crime, where 68% are worried but 8% have actually been affected.

Top of mind risk to safety

- Road and transport
- Crime and violence
- Health
- Economy and financial
- Climate and severe weather
- War/terrorism
- Work
- Other risks*
- Nothing/No risk
- Don't know

Asked to name the single greatest risk to their daily safety, people in Honduras most often point to crime and violence (22%), above the global figure of 10%. Health problems ranks second (13%), followed by road and transport accidents (12%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
