

## Worry and experience of harm from everyday risks

People in the Ivory Coast are most worried about road and traffic accidents (88%) and violent crime (81%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in the Ivory Coast runs higher than the global average. Concern far outstrips lived experience, however: while 88% worry about road and traffic accidents, only 17% have actually been harmed by it in the past two years. The harm most commonly experienced in the Ivory Coast is prolonged severe weather (21%). The gap between worry and experience is widest for road and traffic accidents, where 88% are worried but 17% have actually been affected.

## Top of mind risk to safety

Asked to name the single greatest risk to their daily safety, people in the Ivory Coast most often point to health problems (20%), above the global figure of 13%. The economy and personal finances ranks second (19%), followed by crime and violence (18%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
