

Worry and experience of harm from everyday risks

People in Madagascar are most worried about prolonged severe weather (80%) and severe weather events (79%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Madagascar runs higher than the global average. Concern far outstrips lived experience, however: while 80% worry about prolonged severe weather, only 32% have actually been harmed by it in the past two years. The harm most commonly experienced in Madagascar is prolonged severe weather (32%). The gap between worry and experience is widest for violent crime, where 73% are worried but 6% have actually been affected.

Top of mind risk to safety

- Road and transport
- Crime and violence
- Health
- Economy and financial
- Climate and severe weather
- War/terrorism
- Work
- Other risks*
- Nothing/No risk
- Don't know

Asked to name the single greatest risk to their daily safety, people in Madagascar most often point to the economy and personal finances (23%), above the global figure of 14%. Crime and violence ranks second (15%), followed by health problems (10%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
