

Worry and experience of harm from everyday risks

People in Mauritania are most worried about road and traffic accidents (71%) and prolonged severe weather (67%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Mauritania runs in line with the global average. Concern far outstrips lived experience, however: while 71% worry about road and traffic accidents, only 12% have actually been harmed by it in the past two years. The harm most commonly experienced in Mauritania is prolonged severe weather (22%). The gap between worry and experience is widest for road and traffic accidents, where 71% are worried but 12% have actually been affected.

Top of mind risk to safety

Asked to name the single greatest risk to their daily safety, people in Mauritania most often point to the economy and personal finances (26%), above the global figure of 14%. Crime and violence ranks second (20%), followed by health problems (16%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
