

Worry and experience of harm from everyday risks

People in Mauritius are most worried about road and traffic accidents (97%) and prolonged severe weather (94%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Mauritius runs higher than the global average. Concern far outstrips lived experience, however: while 97% worry about road and traffic accidents, only 4% have actually been harmed by it in the past two years. The harm most commonly experienced in Mauritius is prolonged severe weather (10%). The gap between worry and experience is widest for road and traffic accidents, where 97% are worried but 4% have actually been affected.

Top of mind risk to safety

- Road and transport
- Crime and violence
- Health
- Economy and financial
- Climate and severe weather
- War/terrorism
- Work
- Other risks*
- Nothing/No risk
- Don't know

Asked to name the single greatest risk to their daily safety, people in Mauritius most often point to crime and violence (30%), above the global figure of 10%. Road and transport accidents ranks second (14%), followed by health problems (6%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
