

Worry and experience of harm from everyday risks

People in Slovakia are most worried about road and traffic accidents (78%) and prolonged severe weather (77%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Slovakia runs in line with the global average. Concern far outstrips lived experience, however: while 78% worry about road and traffic accidents, only 11% have actually been harmed by it in the past two years. The harm most commonly experienced in Slovakia is prolonged severe weather (16%). The gap between worry and experience is widest for road and traffic accidents, where 78% are worried but 11% have actually been affected.

Top of mind risk to safety

Asked to name the single greatest risk to their daily safety, people in Slovakia most often point to health problems (19%), above the global figure of 13%. War or terrorism ranks second (17%), followed by the economy and personal finances (16%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
