

Worry and experience of harm from everyday risks

People in Sri Lanka are most worried about road and traffic accidents (82%) and prolonged severe weather (76%) causing them serious harm, the two highest levels of concern among the ten risks asked about. Across all ten, worry in Sri Lanka runs in line with the global average. Concern far outstrips lived experience, however: while 82% worry about road and traffic accidents, only 7% have actually been harmed by it in the past two years. The harm most commonly experienced in Sri Lanka is prolonged severe weather (13%). The gap between worry and experience is widest for road and traffic accidents, where 82% are worried but 7% have actually been affected.

Top of mind risk to safety

Asked to name the single greatest risk to their daily safety, people in Sri Lanka most often point to road and transport accidents (21%), above the global figure of 15%. Health problems ranks second (12%), followed by crime and violence (7%).

Risks which ranked below 2% of the global average are aggregated into this 'Other risks' category.
