# World Risk Poll 2023

## Resilience in a Changing World

### Lloyd's Register Resilience Index: 2023 vs 2021 Zimbabwe

The Resilience Index ranges between 0 and 100, with a higher score indicating greater resilience.

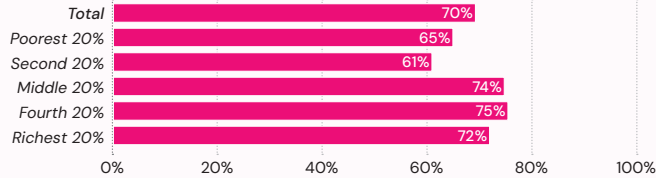

The overall score is a composite of four sub-indices: individual, household, community, and societal, each derived from multiple World Risk Poll questions.

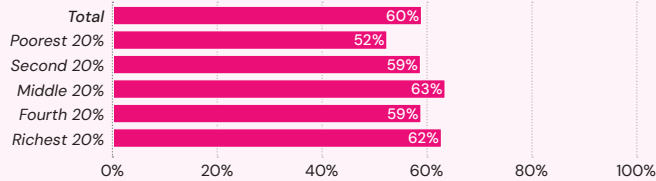

|      | Global Rank | Resilience Index | Individual | Household | Community | Societal |
|------|-------------|------------------|------------|-----------|-----------|----------|
| 2023 | 118th       | 45               | 28         | 36        | 48        | 66       |
| 2021 | 101st       | 46               | 34         | 36        | 47        | 65       |

### Received advanced warning about disaster experienced: *Split by income quintiles*

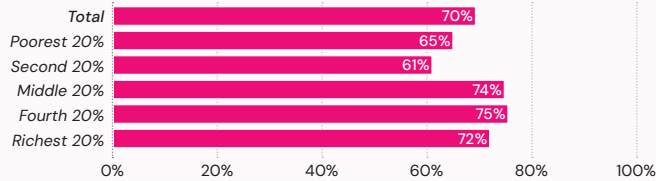

#### Zimbabwe

#### East Africa

#### Global

Percentage who received warning

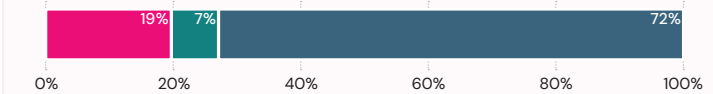

\* This country was not polled in 2021.
